

STEERING WHEEL APPLICATION CHART

****NOTE WARNING****

*For cars equipped with airbag systems, our hubs are intended for race use only

*The replacement of the steering wheel on cars equipped with airbag systems will disable both the function of the airbag system of the driver and that of the front passenger or any other airbag fitted to the car.

*Incorrect installation can lead to a steering wheel failure which can cause an accident resulting in serious personal injury or death.

**Warning to MOMO distributors and
express disclaimer of liability**

Every automobile manufactured for sale in North America must be equipped with an automatic restraint system which meets federal safety standards. MOMO has been advised it may well be a violation of federal law for any manufacture, distributor, dealer or motor vehicle repair business to remove an airbag or otherwise render it inoperative. Accordingly, federal law should be regarded as prohibiting MOMO distributors from removing any airbag steering wheel and replacing it with a MOMO steering wheel.

MOMO and Grand Prix Import expressly disclaims any liability for any and all damage, injury, or other recovery related to any MOMO steering wheel installed in a vehicle previously having an airbag restraint system.
